

Find your Glove Size

Use the following information to help you find your hand measurements, then select the relevant glove size from the tables below.

How to Find Your Hand Measurements

Hand Width:

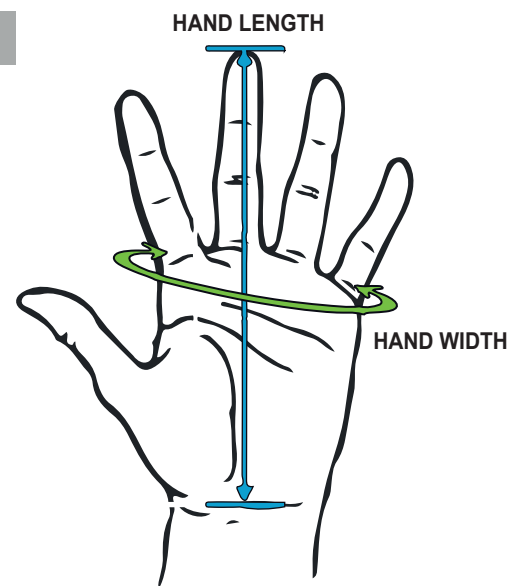

With your hand open, measure from the tip of your middle finger, down to the crease at the base of your palm

Hand Length:

With your hand open, measure around the circumference of your hand, at the base of your knuckles

Please remember that if the gloves are too tight on your hands they may make your hands feel cold, so if in doubt go up a size!
